

Dell VERTIV GXT5-2000LVRT2UXLTAAN

Online Double-Conversion UPS system delivering consistent, clean power by fully isolating the output from the input through continuous AC-to-DC-to-AC conversion providing zero transfer time and maximum protection regardless of power conditions.

ECO Mode is an energy-saving setting, which powers your equipment through the AC bypass line when the utility power is normal, instead of running through the Online Double-Conversion inverter.

User-replaceable, Hot-swappable Battery

SPECS:

- Rating: 2000VA/1800W
- Input Voltage: 120VAC typical
60-150VAC range
- Output Voltage: 110/115/120/125VAC
user-configurable $\pm 3\%$
- Efficiency: up to 98% ECO Mode, up to 95% Online Double-Conversion Mode
- Wiring: Input NEMA L5-20P A
Output L5-20R+5-20R $\times 6$
- Rack Height: 2U
- Dimensions: 3.4" H x 16.9" W x 18.6" D
- Weight: 47.5lbs

TAAN models include:

- **RDU101 module:** employs Ethernet networks to monitor and manage a wide range of operating parameters, alarms and notifications.

Rating: 2000VA/1800W
