

CORE COMPETENCIES

Established 10+ years ago, Dualos provides guidance and leadership in supply chain management and risk mitigation through managed workflow and oversight. Dualos partners with the largest and most respected test & measurement, instrumentation and control, embedded computing and IT manufacturers to deliver the best value to our customers and partners. Dualos has the financial strength to manage any level of purchase. Dualos is a Native American, Woman Owned, HUBZone certified entity.

Dualos Components, a division of Dualos, LLC, is a proven and well-respected design and manufacturer of critical hydraulic aircraft components for the aerospace industry.

PAST PERFORMANCE

Past performance is an excellent indicator of future success. Dualos relentlessly, through our QMS, consistently reviews and improves processes striving for 100% quality in all we do. Dualos is ISO 9001:2015 and aerospace AS9120B certified.

DIFFERENTIATORS

Utilizing thought leadership, Dualos has established itself as a proven acquisition services organization driving unneeded cost out of the supply chain through supplier management, PO consolidation, vendor consolidation, kitting, electronic workflow and e-commerce solutions. By leveraging past combined procurements and future forecasting, Dualos delivers best cost. Dualos' solutions provide customers with real-time information from PO through product delivery, along with key performance indicators eliminating potential risk from the supply chain.

Dualos works closely with the Programs and Buyers of it's Customer's, giving visibility to future demand and predictability. Both Partners and Customers rely on Dualos for quick quote turn-around, order management, transparent communications and supply chain management, resulting in exceptional Supplier Score Cards.
